

About Amfit

Amfit is the **world leader** in custom foot orthoses and **fabrication** equipment.

With the growing need of aging baby boomers, rising numbers of diabetics and better understanding of foot orthotic treatment for numerous pathologies, custom made foot orthoses is a growing industry. With over two decades of experience, Amfit's equipment is field proven and can meet the increasing demands for custom foot orthoses and fabrication equipment.

With a unique combination of technology, market leadership, experience, and positive demographic shifts, Amfit's future is bright indeed.

Amfit Has a Wide Array of Patented Technologies, Including:

- The Contact Digitizer foot contour measurement system
- Impress Scanner with foam box scanning technology
- CAD/CAM Milling Machine
- Correct & Confirm Windows-based software
- Footprinter Foam Casting
- Central Fabrication Services
- A5513 Diabetic Inserts
- EVA Orthotics
- Carbon Fiber Orthotics
